Pain Management Specialists

Orlin & Cohen's interventional pain management team features board-certified and fellowship-trained specialists whose experience in the latest minimally invasive techniques can provide patients with significant relief—and improve their lives.

- Accredited state-of-the-art digital fluoroscopy suites enable our specialists to target and treat pain with maximum accuracy.
- Conventional and advanced interventional techniques include but are not limited to epidural steroid injections, facet injections and medial branch blocks, provocative discography, sacroiliac, hip/knee and other joint and bursa injections, BOTOX® and MYOBLOC® injections, radiofrequency denervation, genicular nerve blocks, sympathetic blocks, peripheral nerve blocks, epidural lysis of adhesions, spinal cord stimulation, and percutaneous disc decompression, Intracept procedure, and MILD procedure, PRP injections.
- Our multidisciplinary, collaborative approach means our team works together with referring physicians, anesthesia to perform injections, as well as physical and occupational therapists to offer a full range of treatment options and services for patients suffering from chronic and/or acute pain.
- Most Insurances accepted.

Daniel Yadegar, M.D.
